KEEP THIS DIRECT MESSAGE FROM GOD CLOSE TO YOUR HEART.

"All things work together for the good of those who love God and are called according to His purpose."

FEBRUARY IS A TIME OF REST AND PLANNING FOR THOSE WHO PRACTICE PERMACULTURE...

However, if you're planning to sow, grow, and include tropical hot peppers, eggplant, onions, and leeks in your garden this spring, February is the month to start sowing seeds indoors. Consider why tropical seeds require extra warmth and care to fruit in North American climate.
